Research interests

Machine learning, classification, imbalanced data, generative models, uncertainty modeling, model robustness, explainable AI, belief function theory

Education

- 2021–présent **PhD, computer science**, *University of Artois*, Béthune, France
joint program (co-tutelle) with University of Tunis (Institut Supérieur de Gestion de Tunis, co-supervised by Pr. Zied Elouedi and Pr. Eric Lefevre)
- 2018–2020 **Master, computer science for decision making**, *Institut Supérieur de Gestion de Tunis*, Tunis, Tunisia
○ Machine learning ■ Graph theory ■ Uncertainty modeling ■ Stochastic process ■ Text mining ■ Graphical models ■ Algorithm complexity ■ Optimization...
○ Master thesis under the co-supervision of Pr. Zied Elouedi and Pr. Eric Lefevre.
- 2015–2017 **License, Business informatics**, *Institut Supérieur de Gestion de Tunis*, Tunis, Tunisia

Publications

F. Grina, Z. Elouedi, and E. Lefevre, "Evidential Generative Adversarial Networks for handling imbalanced learning," in *Symbolic and Quantitative Approaches to Reasoning with Uncertainty (ECSQARU)*, Arras, France, September 19–22, 2023, *Proceedings 17*

F. Grina, Z. Elouedi, and E. Lefevre, "Re-sampling of multi-class imbalanced data using belief function theory and ensemble learning," *International Journal of Approximate Reasoning*, vol. 156, pp. 1–15, 2023.

F. Grina, Z. Elouedi, and E. Lefevre, "Learning from imbalanced data using an evidential undersampling-based ensemble," in *Scalable Uncertainty Management: 15th International Conference, SUM 2022, Paris, France, October 17–19, 2022, Proceedings*, pp. 235–248, Springer, 2022.

F. Grina, Z. Elouedi, and E. Lefevre, "Déséquilibre multi-classes: une approche évidentielle de rééchantillonnage hybride," in *31e Rencontres Francophones sur la Logique Floue et ses Applications, LFA'2022*, pp. 255–262, Cepadus, 2022.

F. Grina, Z. Elouedi, and E. Lefevre, "Evidential hybrid re-sampling for multi-class imbalanced data," in *Information Processing and Management of Uncertainty in Knowledge-Based Systems: 19th International Conference, IPMU 2022, Milan, Italy, July 11–15, 2022, Proceedings, Part II*, pp. 612–623, Springer, 2022.

F. Grina, Z. Elouedi, and E. Lefèvre, "Uncertainty-aware resampling method for imbalanced classification using evidence theory," in *Symbolic and Quantitative Approaches to Reasoning with Uncertainty (ECSQARU), Prague, Czech Republic, September 21–24, 2021, Proceedings 16*, pp. 342–353, Springer, 2021.

Relevant experience

- Feb 2020 - **Research internship**, LARODEC, Tunis, Tunisie
- Nov 2020
 - Conducted state of the art for algorithms handling imbalanced data.
 - Proposed a new oversampling technique based on belief function theory.
- Jul 2018 - **Data scientist**, *Epilept*, Tunis, Tunisie
- Feb 2019
 - Research and development of algorithms to deal with medical signals
 - Implementation of machine learning methods to predict epileptic seizures.
 - Communication with the medical team for clinical trials.
 - Developed the back-end of an IOT system.
- Feb 2018 - **Cybersecurity data scientist**, *Keystone*, Tunis, Tunisie
- Jun 2018
 - Designed and implemented a log analysis system with intrusion alerting
 - R&D in algorithms for detecting intrusions through Netflow logs

Skills

- Languages Python, R, Matlab, C/C++, Java, C#, Javascript
- Libraries pytorch, tensorflow, keras, scikit-learn, open-cv, gdal, numpy, scipy, matplotlib
- Others Docker, git, Linux, Elasticsearch, Kibana, Grafana, Hadoop, Spark, Azure Cloud, SQL/PLSQL

Langages

Arabe: native

French: fluent

English: fluent
